## Celebrating 10 Years of Service & Excellence

“Celebrating WNA’s ten year anniversary is cause to reflect on our success as a company, to thank the people that have made us successful, and to plan for the next ten years. It is the people that we so carefully select and nurture that are the true reason for our success. After all, we do not sell a product; we sell the skills and dedication of the people that work at our firm.”

*Ken Notaro, PE, Principal*

**Williams Notaro  
& Associates, Inc.**

MECHANICAL, ELECTRICAL, PLUMBING &  
FIRE PROTECTION CONSULTING ENGINEERS

### Did You Know?

- ◆ WNA’s staff offers Professional Engineer (P.E.) registration in Virginia, Maryland, District of Columbia, California, Colorado, Florida, Kansas and Michigan.
- ◆ 50% of our technical staff are licensed Professional Engineers.
- ◆ 60% of our remaining technical staff are registered EIT’s.

### April’s Installation Blooper Contest

Think all work gets installed properly as shown on the engineering drawings? Then click on [www.wnainc.com](http://www.wnainc.com) to see an improbable, yet actual, installation. Correctly identify the blooper and you’ll automatically be entered to win a \$50 Visa gift card. To prevent bloopers like these, include construction administration services in your engineering contracts.
